

CTS Container & Trailer Services Ltd.

ISO Containers – New Builds & Modification

CTS have the expertise and facilities to manufacture newly built, fully tested & certified ISO Containers. Because we have our very own In-House Design Engineers, CWB Certified Workshop, Blast & Paint Bays and one of the few fully functional ISO

Test Rigs in North America we can complete the whole process from initial design to the final test all from our own depot. We are delighted to have our New Build ISO Containers approved by the American Bureau of Shipping (A.B.S.)

In addition to our New Build capabilities we specialize in modifying existing ISO Containers and transforming them into Compressor & Generator Housings, Accommodation Modules and Workshops to name but a few of our recent successfully completed modifications.

Other ISO Container Services include:

11 acre Container Storage Facility
Mobile Repair Services
Fleet Management Services
Extensive Sales & Rental Fleet

Call or visit us today to find out how we can help make your next project a success.

Your ONE STOP SHOP for Containers.
