

CTS Container & Trailer Services Ltd.

ISO Containers – Overview

Located within the multifunctional Burnside Industrial Park in Dartmouth, Nova Scotia, just a short drive from one of the busiest deep water ports in the world, CTS is ideally situated to supply and service your ISO Container requirements.

Our modern and secure storage facility is capable of housing more than 10,000 TEU's at any one time and our state of the art 18,000 square feet workshop can accommodate any size of repair. Our mobile repair unit is also available and is capable of repairing your unit on site thus saving on your transportation costs. We believe we have the most experienced and knowledgeable container handling & logistics staff in the business and combined with our custom designed Container Tracking system we can help you manage your ISO Container fleet effectively.

Not only can CTS repair and manage your fleet of ISO containers, we can supply newly built, fully tested & certified ISO containers and we specialize in the modification of existing ISO Containers, transforming them into Generator Housings, Workshops and Accommodation Units. We are proud to have one of only a few fully functional ISO Container Test Rigs in the whole of North America.

In addition we have an extensive stock of ISO Containers available for Sales & Rental.

Your ONE STOP SHOP for Containers.
