

CTS Container & Trailer Services Ltd.

Manufacturing

CTS have the expertise and facilities to manufacture fully tested & certified Containers to any size and specification, from Standard Dry or Open Top units to Paint Lockers, Generator Housings and Accommodation Modules. Every unit we supply is designed, built and certified to the latest industry standards, EN12079, DNV2.7-1, DNV2.7-2 (Class I Div I or Div II).

From within our 18,000 square feet CWB Certified Manufacturing Facility, our experienced team of design engineers and certified welding technicians can help you imagine, design and create the ideal container for your next project. We can accommodate the largest of build programs producing units from Tool Baskets to A60 Workshops all finished to the highest standards.

Facilities & Services Available Include:
CWB Certified Workshop & Technicians
